MANAGER[®]

Part of «en correspondance»
new collection of publishing papers

We made a selection of finely watermarked writing and publishing papers. Manufactured with most traditional methods, they carry in their heart the expertise of our fully integrated watermark workshop.

With its elegant watermark, Manager[®] is a smooth and precise paper, particularly suitable for business correspondence. The embossed version «Linen» brings a plus of chic.

HP Indigo certification
on request.

80 – 100 gsm

Applications

Letterheads, business correspondence, business communication..

Utilisation

Inkjet printer: printing quality guaranteed up to 120 gsm.

Laser printer: printing quality guaranteed from 80 to 160 gsm.

Digital laser printing.

Other elements : offset, letterpress, silk screen, thermography, foil blocking, die stamping, embossing, varnishing...

Printing recommendation

Screen ruling : 150 lpi and 133 lpi for Manager Linen.

It is recommended to use conventional, positive-drying inks or fully oxidizing inks. The utilisation of UV inks is possible, but overnight / stay fresh / duct-stable inks should be avoided. It should be used an anti-set-off powder. Allow sufficient drying time. Infra red drying assistance is possible

In case of following laser printing the use of specific ink is advisable.

Varnishig

The use of a compatible pre-sealer is strongly recommended before applying a gloss UV varnish.

Paper weights under 160 gsm should not be varnished.

Packaging and storage

Store the wrapped paper in the printing machine room until it has adapted to the room temperature.

Only remove the wrapping paper shortly before printing.

Cover paper after the printing process has been finished.
